QUICKCLOSE

*Land Surveying, Geodesy and Field Astronomy software for the HP48
 and HP49 series calculators*

Developed in Australia

ABN 68 801 812 834

QUICKCLOSE is a comprehensive suite of land surveying, geodesy, engineering, coordinate geometry and field astronomy programs for the HP48G+, HP48GX and HP49G calculators.

- [QUICKCLOSE Product Information and Technical Specifications](#)

Quickclose is fully documented and supported. All programs are RAM based and no plug-in cards are necessary to operate the software.

Users have the option of either purchasing **QUICKCLOSE** or developing their own programs with the assistance of resources from this website.

- [Programming tips, tutorials and documentation](#)
- [Sample USER-RPL surveying programs](#)

DOWNLOAD FREE TRIAL EVALUATION PROGRAM

The fully operational program can be downloaded complete with documentation. The program will run for 200 major operations before automatically uninstalling (with warnings).

- [QUICKCLOSE Expert 2.01 \(HP48G+/GX\) Evaluation \(671kB\)](#)
- [QUICKCLOSE Expert 2.01 \(HP48G+/GX\) Evaluation with emulator \(1.1 MB\)](#)
No calculator required !
- [QUICKCLOSE Expert 2.13 \(HP48GII/HP49G/G+\) Evaluation \(670kB\) \(updated 6th August 2004\)](#)

Purchasing QUICKCLOSE

QUICKCLOSE can be purchased from any [SOKKIA Australia](#) outlet, or from [THEODIST](#) in Papua New Guinea.

SECURE PURCHASE ONLINE from Australian Spatial Information Business Association (ASIBA) <http://www.xyz.au.com>
